# Deming is Growing

## Progressive Community

Faster than any other community in southern New Mexico. It is now a city of 5,000 inhabitants in the center of one of the most important farming, cattle raising, and mining sections of the Southwest. It is located on three great railroads and far enough away from larger cities to allow it to develop into the great city it is destined some day to become.

## INVEST IN DEMING'S LOTS

Situated close-in on the original townsite of Deming. Sold on easy terms. You are not too late to take advantage of the rise in values, which is bound to come with the increase in population. Do not overlook this speculative feature. The lots are going fast and shrewd buyers will not fail to make selections at once. Call at the office of the Water Company and get any information you may require.

## FEAR A TIE-UP IN RAILWAY SERVICE BECAUSE OF STRIKE

The railway managers fear that the western railroads will soon be tied up completely on account of a strike now threatened by engineers and trainmen. The strike would effect all three of Deming's lines and will, if it materializes, mean loss and inconvenience to everyone. A referendum is now being taken and it is believed by both the employees and all the railroad managers that the strike will be authorized. The managers have been putting their case before the people. As yet the Graphic has heard nothing from the other side. Summarized the railroad managers maintain:

In ten years there has been an increase of from 35 to 45 per cent in the average wages of engineers and trainmen.

Now they demand 25 per cent more wages for no more work; aggregating \$100,000,000 increase a year. Their wages now average \$1,253 a year. A 25 per cent increase would make \$1,566 a year for 309,000 men. The other 1,381,000 railway employees, who are forestalled by this demand, now average \$685 a year. Engineers now average \$1,771.80—

some get more than \$3,000. Firemen average \$1,533.62—many get more than \$1,500.

Conductors average \$1,533.62—many get more than \$2,000.

To give all railway employees increase in wages in proportion to that now demanded by the engineers and trainmen would take \$330,000,000, 97 per cent of the net railway dividends paid in 1914.

The employees in train service are asking for \$100,000,000 more in wages, for no increase in labor.

Mike Chiantaretto, who was before Judge C. C. Rogers Saturday morning charged with selling liquor on Sunday, appeared again Monday morning and paid a fine of \$25 and the costs of the action.

### Monser Buys Laundry Interest

Frank Monser, former manager of the Southwestern Machinery Supply Co., after having disposed of his interests in the machinery concern to E. T. Murray, bought a half interest in the Deming Steam Laundry of H. G. Bush. He has taken the management over. Robert Conklin has been retained as foreman.

Mrs. Charles Mulligan departed Monday afternoon for Wichita Falls,

Texas, for an extended visit.

Z. I. Williams of San Angelo, Texas, who has been spending two weeks in Deming visiting his son, J. B. Williams, the saddler, departed for home Monday afternoon.

### Disinfectants and the Dairy

Disinfectants are of great importance in preventing and combating any infectious disease. Following are brief directions for their use:

Yards: Remove all litter and manure and sprinkle liberally with a solution of copper sulphate, 5 oz. to the gallon of water.

Stables: Clean out thoroughly by brushing and scraping, and then saturate with one of the following solutions: Liquor cresolis compositus, crude carbolic acid, or some reliable coal tar disinfectant, 6oz. to the gallon of water. After this has dried cover the walls and ceiling with white wash to which has been added 4oz. of chloride of lime or carbolic acid. Disinfectant and lime wash may both be applied by means of strong spray pump, such as is used in the orchard. Bichloride of mercury makes an excellent stable

### AFTER SIX YEARS

Albuquerque Testimony Is Unshaken. Time is the best test of truth. Here is an Albuquerque story that has stood the test of time. It is a story with a point which will come straight home to many of us.

Mrs. E. Adair, 823 S. Edith St., Albuquerque, N. M., says: "I had pain in my back, below my shoulder blades. When I was on my feet or walking around, I didn't feel the trouble, but the minute I sat down, the pain began. One box of Doan's Kidney Pills brought relief."

(Statement given Jan. 31, 1907) OVER SIX YEARS LATER, Mr. Adair said: "I use Doan's Kidney Pills occasionally as I feel in need of them and I always get quick and sure relief."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Adair has twice publicly recommended.

## THE PENNANT SHOW FOR THE WOMEN'S LIBRARY

This is a very funny and attractive entertainment by 40 of the best musical and dramatic people of Deming under the direction of Howard Ten Broeck of New York, and will doubtless be greeted by crowded houses at both performances.

The hard work of the Deming Women's Club in staging this play deserves and doubtless will receive generous financial support from our citizens. Dig up that slick half-dollar and turn out and give the library a bit. Think of the hours that would hang heavy on your hands if you did not have a good book to help pass them away, and then remember that it costs real money to buy these books and keep them in shape, just in there, "nuff sed."

Don't forget the dates, Monday and Tuesday, March 13, and 14, at the Crystal Theater.

The tickets will be on sale from this morning on, at 50c each for the grown-ups, and 25c for the children under 12. All seats will be reserved at the Rosser Drug Co.'s store. No canvassing of tickets will be done, the ladies are depending on their friends to buy seats early.

John Margrave, of the U-Eat restaurant, who had his leg taken off at the hip a few days ago, is doing very nicely.

### Golden Gossip Club
